Wealing Brothers Inc.

Dear Sirs:

We would recommend Wealing Brothers to other companies that need this type of service. We were under contract with another Land App. Company that was unable to get the work done for us and your company was able to help us right away. Wealing Brothers came in and got us back on track again and they did it very fast and efficient. Please call me if you have any questions at (812)254-2792.

Sincerely,

D. Scott Rainey  
City of Washington  
Washington Wastewater Superintendent
